

Navy Region Mid-Atlantic Maine Sites

Commanding Officer

Environmental Policy

Navy Region Mid-Atlantic facilities in the State of Maine are committed to environmental compliance with local, State, and Federal environmental laws, regulations, and policies. We acknowledge that environmental stewardship is essential to the safe, healthful, and compliant execution of the missions and the preservation and protection of our land, air, and water.

Therefore, we, as a Command, are committed to preventing pollution at its source whenever possible. To achieve these goals, we have adopted the following guidelines for the environmental management system across my area of responsibility. We are committed to:

- Integrate sound environmental practices into operations and business decisions that could impact the environment;
- Continually improve environmental performance through use of effective environmental management and planning;
- Ensure implementation of pollution prevention measures and waste minimization programs;
- Develop objectives and targets and implement sustainable practices to reduce environmental impacts;
- Conduct regular environmental management system audits to continually assess progress towards environmental goals;
- Educate employees about their responsibilities to the environment;
- Report any environmental issues to the Environmental Compliance Manager, where present, or to Public Works Department - Maine Environmental Division and promptly implement corrective actions;
- Foster communication throughout appropriate levels of the organization about environmental commitments and performance; and
- Sustain partnerships with local, State, and Federal regulatory agencies and maintain continuous environmental compliance with existing and new regulations and guidelines.

D. W. ETTLICH
Captain, U. S. Navy
Commanding Officer
Portsmouth Naval Shipyard
