

JEBLCFS ENVIRONMENTAL EXTERNAL AUDIT: 1 - 5 MAY 2023 - CNIC, CNRMA, and NAVFAC officials will conduct a Multi-Media Environmental External Audit to include a review of Hazardous Material, Hazardous Waste, Underground and Aboveground Storage Tanks, Storm Water Management, Spill Prevention, Pesticide Management, Air Pollution, and Environmental Management System (EMS) programs.

To ensure a successful audit, it is critical that military, civilian and contractor personnel complete EMS training, understand how their job may impact the environment and always carry an environmental "green card" which provides Environmental Policy, EMS and Spill reporting info. This card may be referenced during the audit to answer auditors' questions.

Complete JEBLCFS Environmental Management System training online at <https://environmentaltraining.ecatts.com/>. Password for new users is "navfac".

For additional information or questions contact the Environmental Division POCs: Roger White at (757) 462-5361 or Sharon Waligora at (757) 462 5350.
