**COMMANDING OFFICER
Environmental Policy Statement**

Environmental stewardship is essential to the safe, healthful, and compliant execution of our mission and the preservation and protection of our land, air, and water. Naval Support Activity (NSA) Mechanicsburg, Philadelphia and Philadelphia Navy Yard Annex are multi-functional facilities that support DoD requirements via three separate installations all under the command of one Commanding Officer.

To achieve our goals, NSA Mechanicsburg has adopted the following guidelines for our environmental management system. We commit to:

- Compliance with local, State and Federal environmental laws, regulations, and policies;
- Preventing pollution at its source whenever possible;
- Continually improve our environmental performance through the use of effective environmental management and planning;
- Ensure implementation of pollution prevention measures and waste minimization programs;
- Develop objectives and targets and implement sustainable practices to reduce environmental impacts.

J. C. THOMAS
Captain, Supply Corps, U.S. Navy
Commanding Officer
Naval Support Activity Mechanicsburg
