

NAVAL STATION NEWPORT ENVIRONMENTAL POLICY STATEMENT

Naval Station Newport is committed to protection of the environment. Environmental stewardship is essential to the safe, healthful and compliant execution of our mission and the preservation and protection of our land, air and water.

This policy statement is issued to reflect our commitment to environmental excellence, environmental compliance, pollution prevention and continual improvement of the environmental programs of the station to ensure we remain prudent stewards of the environment. All military, civilian and contract personnel must perform their duties in a manner that prevents pollution, protects the environment, and conserves natural resources.

NAVSTA Newport, through its environmental protection department, shall make use of the following guiding principles to accomplish its mission:

- Promote environmental awareness and proper training at all levels in the command.
- Improve neighborhood communication through management systems, procedures and the establishment of objectives and targets to meet environmental goals for improvement.
- Ensure environmental factors and pollution prevention are fully considered at the outset and in all stages of planning and execution.
- Continuously monitor compliance with federal, state and local environmental laws, statutes, regulations as well as DoD and Navy policies.
- Protect natural resources in order to support the mission.
- Embrace a high standard of care for all operations that may impact human health.

A handwritten signature in blue ink, appearing to read "H. M. Roenke IV", is written over a horizontal line.
